NEXT-GEN FINANCE

## AREA OF STUDIES

With CFA Institute affiliation, the Finance major delivers a world-class education that strengthens analytical, technical, and ethical competencies for today's dynamic financial world. The curriculum covers key areas including financial management, financial markets, investments, risk management, and financial modeling.

### DESIGN YOUR PATHWAY

The Finance major offers specialized tracks, enabling students to align their interests and career goals:

- **Corporate Finance** – Financial strategy, valuation, and decision-making.
- **Quantitative Finance** – Analytical, mathematical, and FinTech-driven approaches.
- **Applied Accounting** – Skills for accounting-focused careers.

### INDUSTRY-INTEGRATED LEARNING

Exceptional learning opportunities that bring theory to life and broaden global perspectives:

- **Professional Experience** through internships, workshops, and real-world projects.
- **Industry Connections** with certifications, expert talks, and networking.
- **Global and Co-Curricular Development** with exchange programs and activities such as competitions and club events.

### CAREER OPPORTUNITIES

1. Financial Analyst
2. Risk and Compliance Officer
3. Banking and Financial Services Professional
4. Entrepreneur
5. Careers in FinTech, Sustainability, or Data-Driven Finance
