

Job Title: Lecturer of Chemistry

Location: Mahidol University International College

We are seeking a highly qualified and motivated individual for a full-time faculty member position in the Chemistry program, Science division at Mahidol University International College. The successful candidate will be expected to teach undergraduate courses in physical chemistry, computational chemistry, and other courses in chemistry or related science courses, and establish an independent research group.

Qualifications:

- PhD (or DPhil) in Chemistry, Physical Chemistry, Computational Chemistry, or a closely related field (candidates expecting to graduate within the next six months are also welcome to apply)
- Strong record of scholarly publications
- Demonstrated excellence in undergraduate teaching
- Ability to establish an independent research group with undergraduate students
- Excellent communication and teaching skills

Responsibilities:

- Teach undergraduate courses in physical chemistry, computational chemistry, and other related science subjects
- Mentor undergraduate students in research and senior projects
- Conduct research, publish findings, and contribute to academic service activities
- Participate in program, divisional, and university activities

Application materials should include a cover letter describing research accomplishments and teaching philosophy, CV and the names and contact information for at least three professional references. Application package should be sent via email to ichr@mahidol.ac.th. Review of applications will begin immediately and will continue until the position is filled.
