

PREPARATION CENTER FOR LANGUAGES AND MATHEMATICS

Preparation Center for Languages and Mathematics (PC) offers foundation programs designed to strengthen students' academic English and mathematics skills before entering their chosen majors. These programs provide personalized support, small class sizes, and a clear pathway toward successful admission to MUIC.

PC CURRICULUM

This 4-level English Program prepares students for MUIC by focusing on academic reading, writing, listening, speaking, and essential research skills. Each level runs for 10 weeks, ensuring students are fully equipped for university success.

MP CURRICULUM

This preparatory Math Program supports students who already meet MUIC's English requirement but need stronger mathematical skills for their chosen major. The 10-week course builds essential math foundations

****Successful completion of MP or Level 4 of PC's English Program grants you direct admission to MUIC, exempting you from the entrance examination.****

PC XP & PC Elective Track
Boost your academic English and global readiness at PC:

- **PC XP** (5 weeks) is ideal for high-school students looking to use their school break productively.
- **PC Elective Track** (10 weeks) suits learners who want to strengthen their English and academic skills in an international environment.

****The results from PC XP and PC Elective Track cannot be used to further studies at MUIC.****
